

Please note: only **fellows (FRCS)** of the Royal College of Surgeons of England are eligible for inclusion in the *Lives of the Fellows*. These volumes contain short biographies of all fellows who have died between the instigation of the fellowship in 1843 and the present day. So that future editors of the *Lives* will have an accurate account of the background of fellows when the time comes for their entries to be written, it would be helpful if you could include as much biographical information as possible. Please append extra pages if necessary.
